About Sudoku puzzle game and how to play? Sudoku is one of the most popular logic-based number-placement puzzle game. The literal meaning of "Su-doku" in Japanese is "the number that is single". The objective is to fill a nine-by-nine (9x9) grid with digits so that each row, column and 3x3 section contain number between 1 and 9, with each number used once and only once in each section. The ...

About the Game Sudoku is the Hobby You Didn't Know You Needed. Sudoku is one of the most popular puzzle games ever. It is fun, entertaining and 100% logic based. The game, invented in Switzerland, gained popularity in Japan in the late 1980's, where it was given its name: Sudoku is the short form of Su-ji wadokushinnikagiru, which can be translated into "the numbers must be single".
